**7<sup>th</sup> March 2008, London:** Premier Pension Services (PPS) , the Small Self Administered Scheme (SSAS) and Self Invested Personal Pension (SIPP) administrator based in Cardiff and part of the Jardine Lloyd Thompson Group has been short listed in the Professional Pensions UK Pensions Award in the category of 'SIPP Provider of the Year'.

Nigel Manley, Head of Self Invested Pensions, PPS says, "This is a real thrill and huge reward to all those in the business who have contributed to our growth over the last 12 months. PPS is a niche SIPP provider offering our clients and their advisers quality service in what we would call the 'real SIPP' market rather than just a rebranded personal pension with multiple fund choice".

Nigel Manley continues, "We seek to add value through exploring with the adviser the full range of investment options and for this to be supported by good old fashion service. The 'real SIPP' client is often a very important client of the Independent Financial Adviser and the last thing they need is poor service".

Premier has grown substantially over the last few years both organically and through acquisitions such as the NPI SIPP and the Friends Provident SSAS portfolios.

Manley concludes, "It will be interesting to see what effect the increased emphasis from the FSA will have on SIPP sales in the next few years, but I am very confident that we will see solid growth in our SIPP target market and we are committed to maintaining service standards to match".
